

J D Wind Environmental Policy

J D Wind is a small independent service provider to the wind industry who services and maintains wind turbines across the UK.

We are committed to protecting the environment beyond legal and regulatory requirements by reducing packaging, pollution and controlling our waste. We are continually improving our environmental management and performance as an integral part of our business strategy and operating methods, with regular review points. We encourage our customers and suppliers to do the same.

JD Wind have a duty of care to themselves, their co-workers, the general public and the environment to ensure that no activities conducted result in unavoidable negative environmental impact.

Key environmental impacts

- Pollution from vehicles
- Industrial waste from turbine servicing
- Packaging from suppliers
-

Policy aims

We endeavour to:

- Protect the environment
- Comply with and exceed all relevant regulatory requirements
- Continually improve and monitor our environmental performance
- Reduce and control waste
- Reduce vehicle pollution
- Incorporate environmental factors into business decisions
- Increase employee environmental awareness and training
-

Offices

- We will minimise the use of paper in the office wherever possible
- We will reduce packaging as much as possible
- Lights and electrical equipment will be switched off when not in use
- Heating will be adjusted with energy consumption in mind

Site

- All industrial waste will be segregated, collected on a regular basis and removed from site by a licensed waste carrier in compliance with their own environmental waste management policies
- We will reduce the need to travel using alternative arrangements like email and video conferencing
- We will favour more environmentally friendly vehicles and maintain them rigorously to ensure ongoing efficiency
- Cleaning materials will be as environmentally friendly as possible
